FROM THE PRINCIPAL

"Our school is a community of leaders and learners! We have a consistent focus on reading, writing and math, science and social study skills. Our students have well-developed routines in the classroom for supporting these areas. While academics are important, Clearview is also devoted to prepare students for life, groom them to face challenges of tomorrow, and encourage them to be socially responsible. Our use of Leader in Me encourages students to be goal setters and focus on working as a team. We continually develop life-long skills, so our students are better prepared for whatever the future holds for them."

WHAT PARENTS ARE SAYING

"Clearview is like an extended family. The teachers and staff go above and beyond to care for my kids. It goes beyond academics. The teachers take a genuine interest in the kids and their life. It

feels good to know that when my kids are at school, they are surrounded by caring and compassionate staff!"

"Clearview Elementary Faculty and Staff provide a supportive and welcoming environment to all their students. I feel confident in my decision to have my child attend Clearview over any other school because I see my child is thriving and happy to go to school every day. From the top-notch teachers to the knowledgeable staff any parent would find Clearview to be a pleasurable scholastic experience."

"I would like to thank the staff and principal for Clearview for an outstanding job of serving our students and parents/guardians. I believe a quality education may be obtained through any public school with a dedicated staff and principal. I do not believe that the test scores, higher tax revenue or the location of a school dictate a high quality of staff, but it is the dedication of the staff that ensures a high-quality educational experience."

"Clearview was the choice that proved to be the best choice for the high-quality education that we sought as parents for our son. The staff and principal have always taken the time to listen to our concerns in spite of time constraints to their schedules. The staff and principal

have always offered their best efforts to ensure that the Clearview community was serviced to the best of their abilities."
