

Kindergarten Registration 2021-2022 School Year

Dear Elementary School Parents/Guardians:

The Bethlehem Area School District's kindergarten registration window will open on Monday, January 11, 2021. Our full-day kindergarten program allows students to have extended opportunities to learn, play, discover, and grow. Our kindergarten students are provided with fun and exciting activities that start them on a path of successful learning experiences and personal development.

As elementary school parents in our district, please help us spread the word regarding kindergarten registration. Please pass this letter along to friends and neighbors who have a child who will begin kindergarten next school year. Parents interested in registering a child can contact their elementary school office for additional details.

For additional information, please visit the following link:

Thank you for your assistance. Please feel free to contact me with questions.

Sincerely,

Benita S. Draper
