April 27, 2021

Dear Northeast Community,

Hello, my name is Theo Quinones. I am pleased to introduce myself as the next principal of Northeast Middle School. I look forward to getting to know you and joining your school community and your efforts to keep Northeast Middle School P.R.O.U.D.

I would like to recognize and thank Mr. RaHS for his leadership and dedication to both Northeast Middle School and the Bethlehem Area School District. His service to the students and the community has set an example for all.

I have learned about the many wonderful aspects of Northeast Middle School including the; successful athletic teams, outstanding musical and drama programs, the various student clubs and activities, the community school program, the high academic commitment, and of course the incredible students and dedicated staff. It is exciting for me to join such a tremendous community.

I have served as the principal of Governor Wolf Elementary School for the past six years. Prior to that I served as an Assistant Principal at Stroudsburg High School and as an Assistant Principal at Stroudsburg Intermediate Elementary School. I also taught fourth grade for one year at Easton School District and nine years with the Los Angeles Unified School District. I have received my Bachelor of Arts Degree from Albright College, my Master's Degree from California State University and my Doctorate from East Stroudsburg University. My wife is a middle school math teacher in an area school district. We have two daughters, one will be a freshman in college and the other will be a junior in high school.

I am proud to be a member of the Bethlehem Area School District and our commitment to Excellence Through Equity. I believe that every individual has the desire to be better. My goal as an educator has always been to provide support and guidance to all students and their unique strengths. This commitment requires the teamwork of families, students, teachers, and all involved with a school community to help achieve the best versions of ourselves.

With Respect and Anticipation,  
Dr. Theo Quinones
